

# SUPPORT FOR DEPUTY

# NICK DOTSON

Deputy Nick Dotson, from the Oakland County Sheriff's Office, was recently diagnosed with a form of cancer called Nephroblastoma, also known as Wilms' Tumor. Nephroblastoma most commonly affects children and is rare in adults. Nick is married to his wife, Delaney Dotson, and is a brand-new father to their beautiful three-month old son, Sullivan.

Nick has started treatment but will be seeking other treatment options from several different locations which may include out of state. Due to these unforeseen circumstances, Deputy Dotson will be off work for an unknown amount of time as well as his wife Delaney, so she can provide care for Nick and their son.
